This is the first of four courses which introduces students to basic New Testament *koine* grammar and vocabulary.

The Curriculum

In selecting a suitable curriculum for DIT, I examined materials which were designed for self study. I chose *Hey, Andrew! Teach Me Some Greek!* because of its incremental inductive approach. Most other Greek curricula are ill suited for students using English as a second language because they rely on large amounts of English text.

Hey, Andrew! Teach Me Some Greek! was written with young home school students in mind, with mom typically serving as mentor. The curriculum has seven levels. We are skipping the first three levels:

- Level 1 drills the alphabet.
- Level 2 introduces 11 nouns, 8 verbs, and the conjunction ΚΑΙ.
- Level 3 introduces 2nd declension masculine and neuter nouns, and verb conjugation in the present active indicative.

Hey, Andrew! Teach Me Some Greek! Level 4 opens with a thorough review of the first three levels. In DIT Greek I, we have gleaned 19 practice sheets from the Level 3 Worktext, and interspersed them in the grammar review in Level 4.

The four sections of the DIT program will use *Hey, Andrew! Teach Me Some Greek!* as follows:

- DIT Greek I - *Hey, Andrew!...* Level 4
- DIT Greek II - *Hey, Andrew!...* Level 5
- DIT Greek III - *Hey, Andrew!...* Level 6
- DIT Greek IV - *Hey, Andrew!...* Level 7

In DIT Greek II we will introduce students to NT Greek concordance tools.

Mentor's Responsibilities

You, the mentor, should procure a copy of the curriculum which your student is using. Every week you will need to read ahead, so you will be able to effectively review with your student the work he/she has done, and you can introduce concepts presented in the next week's lessons. Show the student familiar English words that are derived from the Greek words the student is learning; the student workbook does not provide this information.

The student should use "Answer Only" Answer Key in checking his/her daily work. You may, however, elect to order the "Full Text" Answer Key.

You should also buy *Hey, Andrew! Teach Me Some Greek!* Levels 3& 4 *Quizzes and Exams*, and the Level 4 flash cards. You will need these for quizzing your student in your weekly mentor meetings.

Order the curriculum from www.greeknstuff.com, and download required supplemental material from WebCT. When your student registers for this course, you and the student will each receive

by mail a packet of practice sheets gleaned from the Level 3 workbook. We have purchased this packet by special arrangement from the publisher.

Introducing the Alphabet

In your first meeting with your student, demonstrate how to write each lower case character of the Greek alphabet. I leave it to your discretion as to how you want to model the formation of each letter. You may either use the model of the Worktext, pages 1-4, or you may model character forms which more closely resemble conventional printed text (especially for the *alpha* and *epsilon*), using DIT Greek I Supplement Session 1.

Your first meeting with your student should cover only the lessons dealing with the alphabet. Only when the student has mastered the alphabet should you introduce vocabulary.

Weekly Quizzes

Each week when you meet with your student, quiz him/her on new material that he/she has covered since your last meeting. Also quiz concepts and vocabulary which he/she has learned in prior lessons. These quizzes will motivate your student to learn the material, committing it to memory, and keeping it fresh, rather than working pedantically through the daily assignments.

A quick and simple quiz tool is your stack of flash cards. Note that the flash cards have page numbers which correspond to Worktext pages. The lesson schedule will aid you in preparing your stack of flash cards for the quiz.

When your student has learned noun and verb paradigms, ask your student to complete a paradigm chart. I suggest you do this every week, to keep the paradigms fresh in the student's mind.

Periodically ask the student to write the alphabet in correct order, and review the name and sound of each letter.

I encourage you to use quizzes and tests prepared especially for *Hey Andrew! Teach Me Some Greek!* Levels 3 and 4. Order these from www.greeknstuff.com. I can also send you a set of quizzes for this course via email.

Enhancing your own Greek competency

In the event your mastery of the language has waned since your seminary days, I highly recommend William Mounce's *Basics of Biblical Greek (2nd Edition)*, published by Zondervan. I use this text and workbook in my Greek class with Gallaudet students and staff. Mounce's text is suitable for a self-study program in New Testament Greek. On Mounce's website <www.tekna.com> you will find additional free resources, including answer keys for his workbook. (I have written a file to print vocabulary flash cards for the Mounce text. If you would like a copy, email me at r.friedrich@juno.com.)

Another good resource for a self-study program is *Elementary Greek: Koine for Beginners*, <www.opentexture.com>, a two-year program which, like *Hey, Andrew! Teach Me Some Greek!*, is marketed to home-schoolers.
